Date: July 9, 2025

Content for VARK (R) Read/Write - Control Pillar

1. "Emotional Regulation Journal Prompts"

- **Categorized Journal Prompts (Text):**
 - **Emotional State Prompts:**
 - "On a scale of 1-10, how intensely did you feel [specific emotion, e.g., frustration/anxiety/joy] on [Hole X]?"
 - "Describe the specific moment or thought that triggered your [emotion]."
 - "What physical sensations did you notice when you felt [emotion]?"
 - "How did this emotion influence your decision-making or shot execution?"
 - "What was the outcome of the shot/hole where you felt [emotion]?"
 - "Looking back, what could you have done differently to manage that emotion?"
 - **Control Strategy Reflection Prompts:**
 - "Did you attempt any mental control strategies (e.g., deep breathing, self-talk)? If so, describe what you did and how effective it felt."
 - "What insights did you gain about your emotional patterns during this round/session?"
 - "Identify one key learning about your emotional control today."

- "What specific action will you take before your next round to improve your emotional management?"
- **Pre-Round/Post-Round Prompts:**
 - "What are your mental goals for this round/practice session regarding emotional control?"
 - "Reflect on your overall emotional composure today. What went well? What was challenging?"
- **Prompt Categories/Tags (Text):** e.g., "Frustration," "Anxiety," "Decision Making," "Self-Awareness," "Post-Round."
- **UI Text:** Prompts for journal entry initiation, "Save Entry" button, feedback on saved entry (e.g., "Entry saved. Keep up the great work!").
- **AI Pre-fill/Contextualization Rules (Logical Structure):** Rules for how the AI selects or customizes prompts based on other data (e.g., if Emotional Thermometer shows "Anger" on Hole 7, suggest a specific prompt for "Anger on Hole 7").

2. "Course Management Strategy Templates"

- **Template Structure & Field Definitions (Text):**
 - **Per-Hole Template Fields:**
 - Hole Number: (Auto-fill from course data)
 - Par: (Auto-fill from course data)
 - Key Hazards/Obstacles: (e.g., "Bunker left, Water right," "OB long")
 - Tee Shot Plan:
 - Club: (Dropdown/Text input)
 - Target Line: (Text input, e.g., "Right edge of bunker," "Center of fairway")
 - Desired Landing Area: (Text input, e.g., "150 yards out," "Short of cross bunker")
 - Risk Level: (Dropdown: Low/Medium/High)

- Contingency (if miss): (Text input, e.g., "If pushed right, punch out to 100 yards")
- Approach Shot Plan:
 - Club: (Dropdown/Text input)
 - Target Aim Point: (Text input, e.g., "Front left edge of green," "Center of green")
 - Preferred Miss: (Text input, e.g., "Miss long right," "Short of green")
 - Risk Level: (Dropdown: Low/Medium/High)
 - Contingency (if miss): (Text input, e.g., "If missed left, simple chip and one putt")
- Green Play/Putting Plan:
 - Aim Point: (Text input, e.g., "One ball outside left edge")
 - Speed Thought: (Text input, e.g., "Dying into the hole," "Firm to the back")
 - Mental Focus: (Text input, e.g., "Smooth stroke," "Commit to line")
- Overall Hole Mental Focus: (Text input, e.g., "Patience," "Accept bad breaks")
- **General Strategy Templates (for broader planning):**
 - Overall Round Goal: (Text input)
 - Key Strengths to Leverage: (Text input)
 - Areas to Protect/Avoid: (Text input)
 - Pre-Round Mental Checklist: (List of checkboxes)
 - Contingency Plan for a Bad Start: (Text input)
- **AI Pre-fill Suggestions (Text):** For various fields, provide common optimal strategies that the AI can suggest based on hole type, par, and user's typical club distances.
 - Example for Target Line: "Center of fairway," "Aim for left edge of bunker."

- **UI Text:** "Plan for Hole [X]," "Save Plan," "View Plans," "Edit," "Print Plan."
- **AI Feedback Templates (Text):** Written feedback phrases for plan analysis.
 - Positive Feedback: "Excellent planning for this hole, clear and concise."
 - Suggestive Feedback: "Your plan for the approach shot seems aggressive given the pin. Have you considered aiming for the center of the green for safety?"
 - Adherence Comparison: "Your planned layup on Hole 12 was a smart move, but your actual shot went for the green. Reflect on the outcome of that decision."

3. "If-Then" Plans

- **"If" Scenario Descriptions (Text):**
 - List of common golf triggers/challenges:
 - "If I hit my drive out of bounds..."
 - "If I leave a putt short..."
 - "If I hit a shot fat/thin..."
 - "If play slows down to a crawl..."
 - "If I feel a surge of anger..."
 - "If I am facing a difficult recovery shot from the trees..."
 - "If I am in the lead with two holes left..."
 - "If my playing partner makes a distracting noise..."
- **"Then" Response Options (Text):**
 - List of concise, actionable mental and behavioral responses linked to control strategies:
 - "...then I will take three deep 'reset' breaths."
 - "...then I will walk with purpose to my ball, head held high."
 - "...then I will silently repeat 'next shot, commit to the process'."
 - "...then I will focus only on my immediate target, ignoring the outcome."

- "...then I will remind myself that mistakes are part of the game and choose a smart recovery."
 - "...then I will visualize a calm, confident stroke."
 - "...then I will use my 'Mental Reset Checklist'."
- **AI-Suggested "Then" Responses (Text):** Provide 1-2 default 'Then' suggestions for each 'If' scenario, drawing from best practices.
- **Guidance Text (Text):** Short explanations on how to create effective "If-Then" plans (e.g., "Make your 'Then' statement specific and actionable").
- **UI Text:** "Create New If-Then Plan," "If (trigger):," "Then (response):," "Save Plan," "My Plans."
- **AI Feedback Templates (Text):** For analyzing user-created plans.
 - Positive Feedback: "This is a strong If-Then plan, clear and actionable!"
 - Suggestive Feedback: "Your 'Then' response is good, but consider adding a specific mental cue, like a breathing technique, to help solidify your reset."

4. "AI-Generated Emotional Control Reports"

- **Report Section Headers (Text):**
 - Executive Summary
 - Overall Emotional Control Score Trend
 - Emotional Hotspots & Triggers
 - Impact on Performance
 - Your Control Strategies in Action
 - Recurring Mental Patterns (from Journal Analysis)
 - Personalized Recommendations & Action Plan
- **Report Content Templates/Rules (Textual Frameworks):**

- **Executive Summary:** Placeholder text like "[Summary of strengths] and [summary of areas for improvement] in your emotional control."
 - **Trend Analysis:** Phrases like "Your Emotional Control Score has [increased/decreased/remained stable] by [X%] over the last [period]."
 - **Trigger Analysis:** Formats like "The most common triggers for negative emotions were: [List of triggers] appearing [X] times, primarily leading to [emotion/behavior]."
 - **Impact Analysis:** Structures like "When experiencing [emotion], your [performance metric, e.g., GIR] saw a [X%] [decrease/increase] compared to your calm state."
 - **Strategy Effectiveness:** "You frequently used [strategy name] when [situation], which correlated with [positive/negative] outcomes [X%] of the time."
 - **Recommendation Phrasing:** "To address [specific issue], we recommend [action item] by focusing on [related feature/concept]."
- **Data Visualization Descriptions (Text for Read/Write focus):** Even without complex visual graphs, describe data trends in clear text.
 - Example: "Your putting average when feeling frustrated (3.2 putts) is significantly higher than when you are calm (2.8 putts)."
 - **UI Text:** "Generate Report," "View Latest Report," "Select Report Period," "Print Report."

5. "Mental Reset Checklists"

- **Pre-defined Checklist Items (Text):**
 - List of short, actionable mental and physical reset steps:
 - "Acknowledge the feeling (without judgment)."
 - "Take one deep reset breath (e.g., Box Breath)."
 - "Shoulders down, jaw relaxed."
 - "Let go of the past shot."
 - "Commit to the next shot fully."
 - "Focus on your specific target."

- "Walk with purpose to your ball."
 - "Re-engage your pre-shot routine."
 - "Smile."
 - "Hydrate/Take a snack."
- **Item Purpose/Benefit Descriptions (Text):** 1-2 sentences for each item explaining its mental benefit.
- **User Customization Guidance (Text):** Instructions on how to add/remove/reorder items and create custom checklists.
- **UI Text:** "Create New Checklist," "My Reset Checklists," "Add Item," "Edit," "Save," "Print Checklist," "Quick Reset (button for in-round use with checkboxes)."
- **AI Feedback Templates (Text):** For analyzing adherence/effectiveness (future).
 - Usage Report: "You used a mental reset checklist [X] times during your last round, particularly after [trigger event]."
 - Effectiveness Prompt: "Did using the [checklist name] help you regain control after that shot? [Yes/No/Partially]"

6. "Learning from Mistakes (Written)"

- **Structured Journal Prompts for Mistake Analysis (Text):**
 - 1. Describe the Event Objectively (Just the facts, no judgment):
 - 2. Identify Your Initial Reaction (Emotionally and mentally):
 - 3. Analyze the Control Breakdown (How did your emotion/thought impact your next action/decision?):
 - 4. Explore the Root Cause (Was it technical, strategic, or mental/emotional? What triggered it?):
 - 5. Reframe & Extract Lesson (What is one control-oriented lesson you can take from this mistake?):
 - 6. Plan for Next Time (Write an 'If-Then' statement for this situation):

- **Guidance Text for Each Prompt (Text):** Brief helper text for each section.
 - Example for Q1: "Focus on what happened, not why or how bad it was. Stick to observable facts."
- **UI Text:** "Analyze a Mistake," "Start New Analysis," "My Mistake Analyses," "Save Analysis," "Edit."
- **AI Feedback Templates (Text):**
 - Summary: "Your analysis highlights [key emotion] as a response to [trigger]. You identified [lesson] as your main takeaway."
 - Suggestion: "Your plan to [user's 'Then' statement] is a good one. Consider practicing it with the 'If-Then Plans' feature."
 - Pattern Recognition: "This analysis is similar to your entry on [date] regarding [similar mistake]. This indicates a recurring pattern in [area of control]."

7. "Strategic Decision Trees"

- **Decision Tree Scenario Titles (Text):**
 - "Tee Shot: Driver or Fairway Wood?"
 - "Approach Shot: Attack or Play Safe?"
 - "Par 5: Go for it in Two or Lay Up?"
 - "Recovery Shot: Hero or Safe?"
 - "Putting: Aggressive or Defensive?"
- **Decision Tree Nodes (Questions & Answers - Text):**
 - For each scenario, define the sequence of questions and their possible text-based answers, and the resulting recommended action.
 - **Example (Partial for "Approach Shot: Attack or Play Safe?"):**
 - **Q1:** "What is the lie like?"
 - **A1.1:** "Perfect/Good" (Go to Q2)
 - **A1.2:** "Average/Tricky" (Go to Q3)

- **Q2:** "What is the consequence of a miss?"
 - **A2.1:** "Minor (bunker, short rough)" (Go to Q4)
 - **A2.2:** "Severe (water, OB, deep bunker)" (Go to Q5)
 - ... (and so on, leading to a final recommendation)
- **Final Recommended Action Statements (Text):**
 - "Recommendation: Play aggressively for the pin."
 - "Recommendation: Aim for the center of the green and play safe."
 - "Recommendation: Lay up short of the hazard."
- **AI Pre-fill/Suggested Paths (Text):** For certain trees, the AI can pre-highlight an "optimal" path based on user data and course conditions.
- **UI Text:** "Start Decision Tree," "Select Scenario," "Back," "Next," "Save My Decision," "View My Decisions."
- **AI Feedback Templates (Text):** For analysis of user's decision path vs. actual play.
 - Adherence Confirmation: "Your decision to [user's chosen action] on [Hole X] perfectly aligned with the tree's recommendation, leading to [positive outcome]."
 - Deviation & Reflection: "You diverged from the tree's recommendation on [Hole Y], choosing [user's action] instead of [tree's recommendation]. This resulted in [outcome]. Reflect on the 'Risk Assessment' questions in the tree."

General Content Requirements for Read/Write Features:

- **Clear, Concise Language:** All prompts, explanations, and feedback should be easy to understand.
- **Consistent Tone:** Maintain a supportive, non-judgmental, and encouraging tone across all written content.

- **Grammar & Spelling:** All text must be professionally edited and free of errors.
- **Structured Formatting:** Use headings, subheadings, bullet points, and numbered lists to enhance readability and organization.
- **Internal Linking:** Define all internal hyperlinks between different features (e.g., from a journal summary to a specific definition).
- **Printable Formats:** For templates and checklists, specify if a print-friendly version is needed (e.g., PDF layout).
- **Metadata:** Provide metadata for each content piece (e.g., associated emotions, strategies, difficulty level, relevant golf situations).
